

Bobby Heffernan BA (Hons) Fine Art
April 2022 Update

Please see below photographs of the work I've been producing since the grant. Also, more descriptions can be found on my website bobbyheffernan.com. The weavings have become more refined and developed and comment of the stillness of life, highlighting things that are typically overlooked. The new weavings are based on the table tops found around the Art School, as a product of the place. The work has slightly changed although I'm still building the looms and the weaving tools myself.

Snow on Mt. Toubkal
2021. cotton wool, walnut, oak, copper nails
